Dear Mr. Ekstrom:

Reference is made to your February 4, 1972 notification of Application by the City of Philadelphia Water Department for Federal Aid Funding in the design and construction of expanded and improved treatment facilities at the Philadelphia Southwest Sewerage Treatment Plant.

The Delaware County Planning Commission is in full support of this application by Philadelphia as it provides for the improved capacity of wastewater treatment at the Southwest Plant into which the Darby Creek Bypass will discharge.

It is hoped that with expeditious processing of this application the City of Philadelphia Water Department will be able to meet their very tight schedule of improvements for this facility.

Very truly yours,

George Varvoutis

Dear Mr. Ekstrom:

The Philadelphia City Planning Commission is in accord with the proposed improvements to the Southwest Treatment Plant. Funds for this project are included in the City's 1972-1977 Capital Program.

Despite the large costs involved, it is necessary to improve substantially the quality of the discharge from the plant while increasing its capacity in order to help clean up the Delaware River.

It should be noted that this is a regional facility, and that a grant has already been awarded to provide a pipe line from Delaware County to the plant which is to process twenty million gallons a day from suburban sources.

Sincerely yours,

R. Damon Childs
Executive Director

PROJECT NO.

GENERAL

Title VI of the Civil Rights Act of 1964 provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, or be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. The Act goes on to explain that the provisions of the Title shall not be construed to authorize action with respect to any employment practice of any employer, employment agency, or labor organization (except where the primary objective of the Federal financial assistance is to provide employment).

The primary purpose of the construction assistance programs under the Federal Water Pollution Control Act, as amended, is development of water pollution control facilities. Accordingly, the following information is required to enable the administering Program to determine whether prospective grantees are developing sewerage and sewage treatment works projects on a non-discriminatory basis so far as provision of sewerage and treatment service is concerned.
